EDUCATION

Computer engineering

Chulalongkorn University
2021 - now (third year)

SKILLS

- C
- JavaScript
- HTML
- CSS
- ExpressJS
- Postgres
- VUE
- PHP
- Docker
- nextjs

LANGUAGE

Thai : Native

English : Intermediate

ABOUT-ME

As a third-year computer engineering student actively seeking an oppotunity, I bring dedication and a strong problem-solving mindset to the table. I excel at teamwork and believe I can contribute to the company's success.

EXPERIENCE

- **Typing Speed Game :** 2022

Designed and implemented a Java-based word-fall typing game. Strengthened Java OOP concept and gained experience in event-driven programming.

- **Plant Watering System :** 2022

Built a plant watering system using an STM32 F411RE board, integrated with NodeMCU for web connectivity. Applied C programming for firmware and gained understanding of embedded systems and IoT concepts.

- **Intership metamedia technology :** 2023

I gained hands-on experience in web development, including Vue.js component development, enhancing a word game with new keyboard features, and Dockerizing web applications for efficient deployment.
